EDUCATION

SEPTEMBER 2018 –DECEMBER 2021
COMPUTER SCIENCE BSc, YORK UNIVERSITY
- 3.4 GPA. Coursework in Data Structures and Algorithms, Object Oriented Programming, Calculus, Discrete Mathematics, Computer Organization, Mobile Software Infrastructure, Software Tools & App Development, Operating Systems, Software Design, Economics, UML, UI, Computer Security, Economics, and Database Structures

EXPERIENCE

JULY 2019 – PRESENT
PRIVATE TUTOR
Conducting one-on-one sessions for youths (grades 5-12) interested in gaining a head start on soft coding skills. Create lesson plan and assignments for java, c, HTML, and terminal commands. Assist on any computer science homework for high schoolers, and help students gain an understanding of the theory and application behind software and computers

JANUARY 2020 –AUGUST 2021
DESIGN INTERN, FUZZBUZZ
Working under the Head of Design to create the company's website, consistently updating it as deliverables were developed. Had some opportunities to code the product with HTML, CSS, and Django

 JANUARY 2019 – JANUARY 2020
TESTER & ADMINSTRATIVE ASSISTANT, HUSSAIN SOFTWARE CONSULTANTS
Self-taught SoapUI software to test programs. Also worked administration duties such as finances, communicating with clients, and scheduling
